
Installing Encore

On a Macintosh:

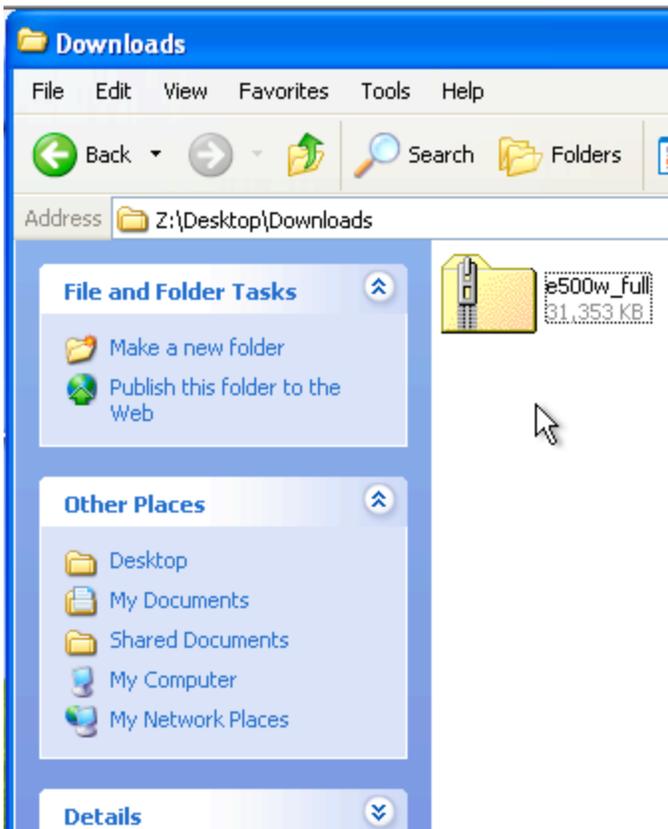

- Click on the file **e500m_full.dmg**, it will open containing the application and supporting documents.
- Drag the Encore icon to the applications folder and put the other folders from the disk image to a folder of your choice (Documents Folder).
- Click on the eject button next to the disk image icon in the left column of the finder window.
- Open **Applications>Encore**
- Encore will open and show a blank score
- Go to **About Encore** and enter the registration code provided.

On a Windows:

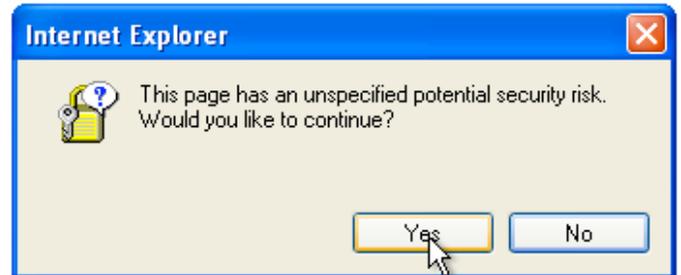

- Click on the file **e500w_full.zip**
- Follow the installer prompts listed on the following pages
- Launch Encore
- Go to **Help>About Encore** and enter the registration code provided.

Using Encore

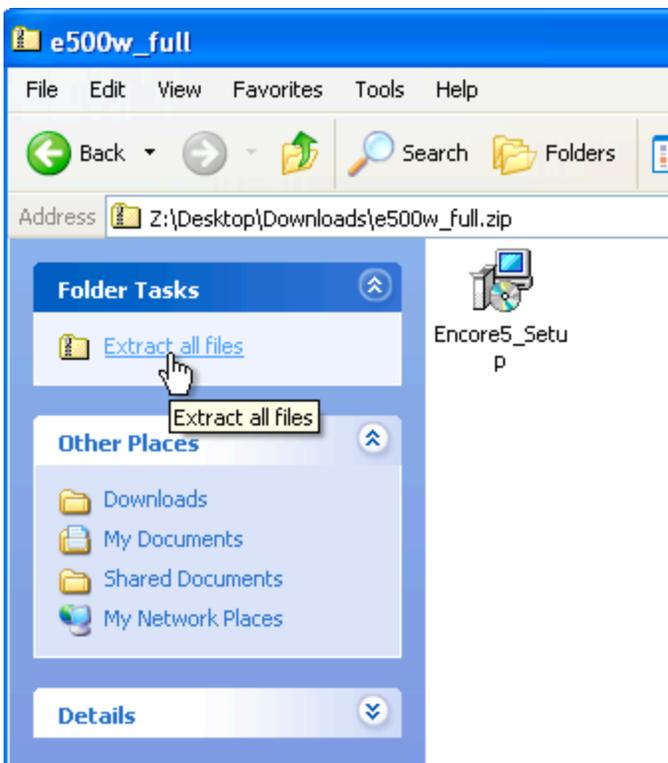

1. Open **Applications/All Programs>Encore**
2. Encore will open and show a blank score
3. Enter notes using the notes pallette by clicking on the note value then clicking on the score
4. Notes may be entered though a MIDI keyboard in realtime by clicking record and then playing
5. Everything may be adjusted by dragging with the “arrow” tool

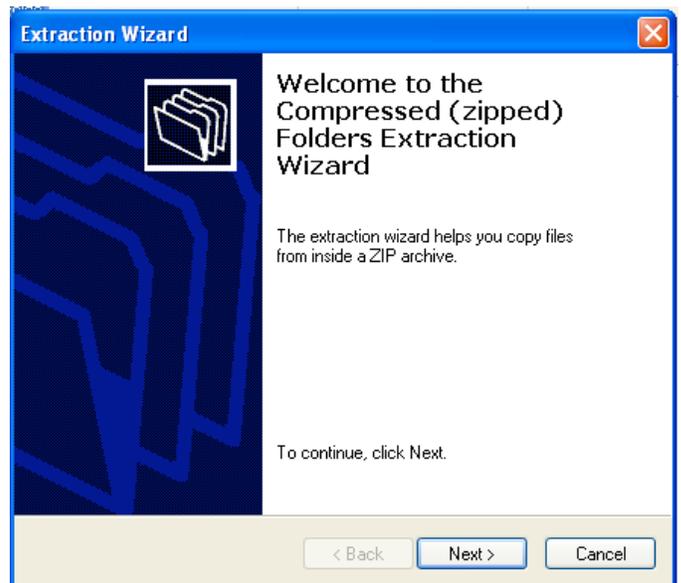

Locate the downloaded application on your computer

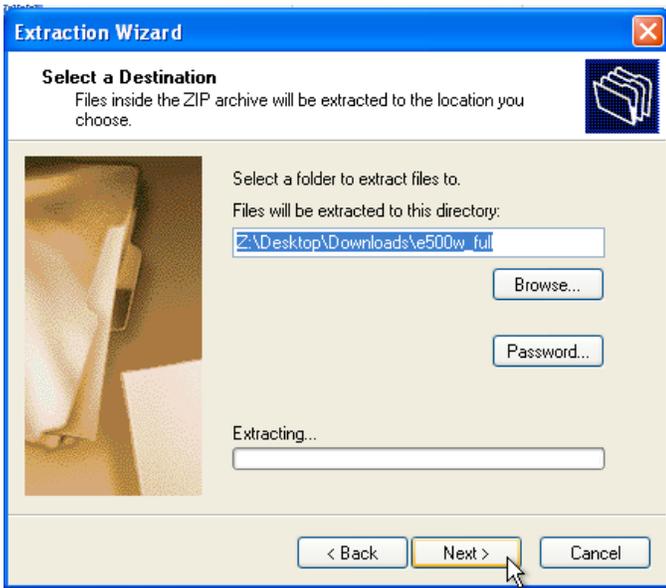

Click **YES**

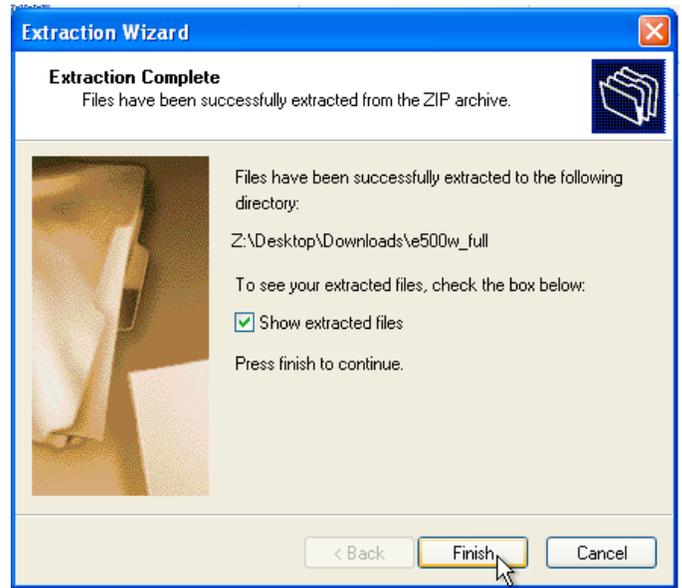

Click **Extract All Files**

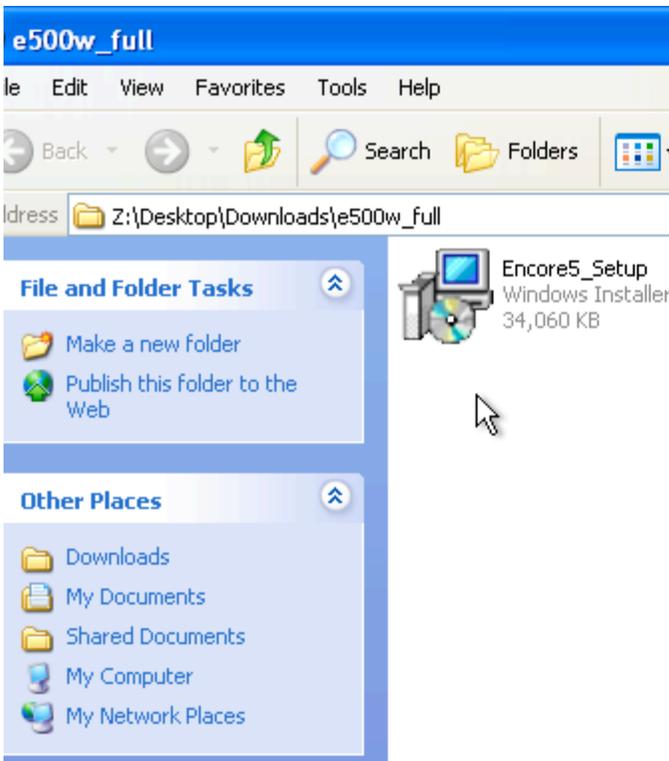

Click **Next**

Select a location to extract the installer to and press next.

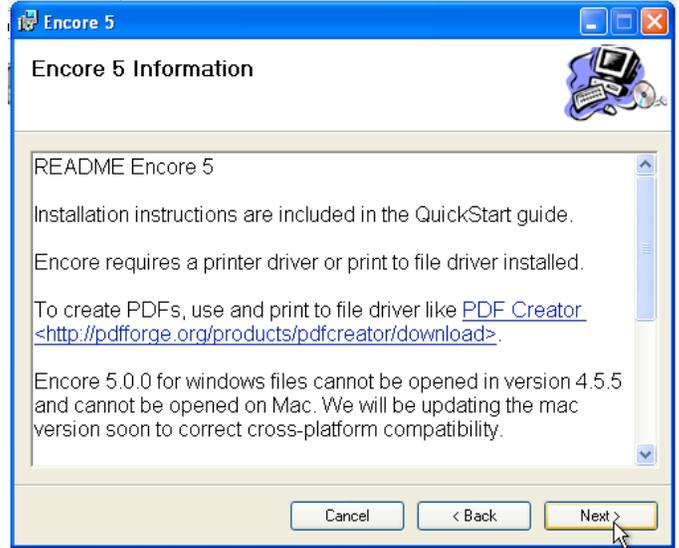

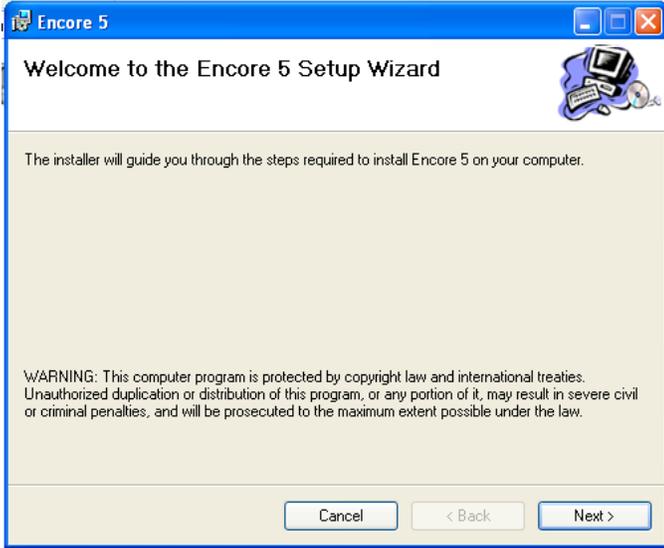

Click **Finish**

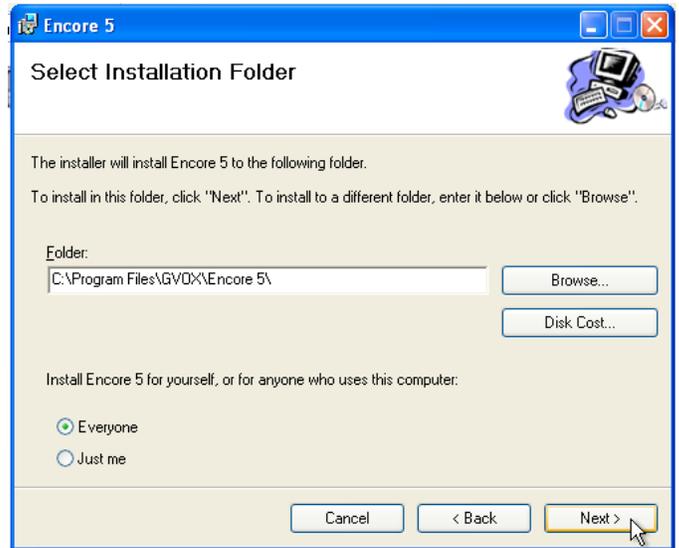

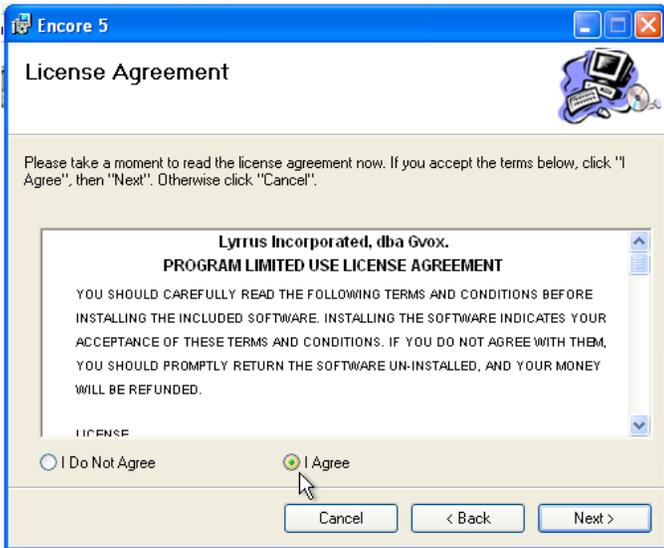

Launch Encore 5 Setup

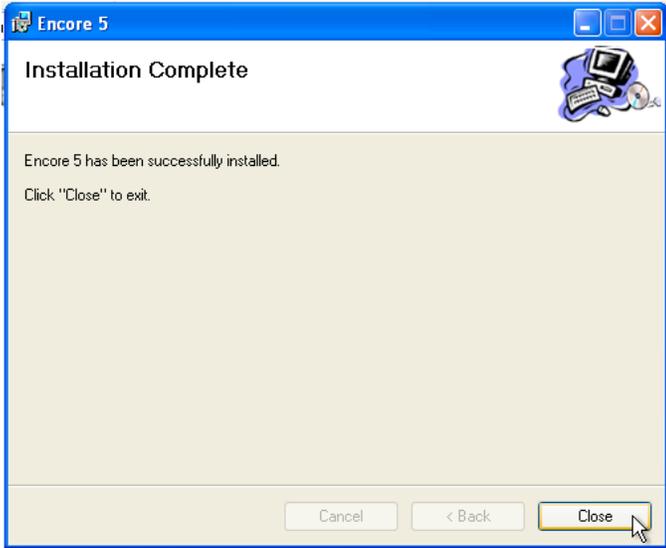

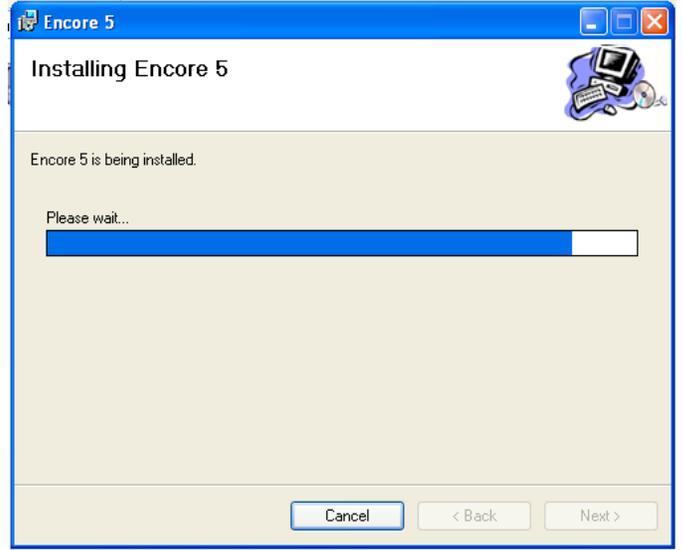

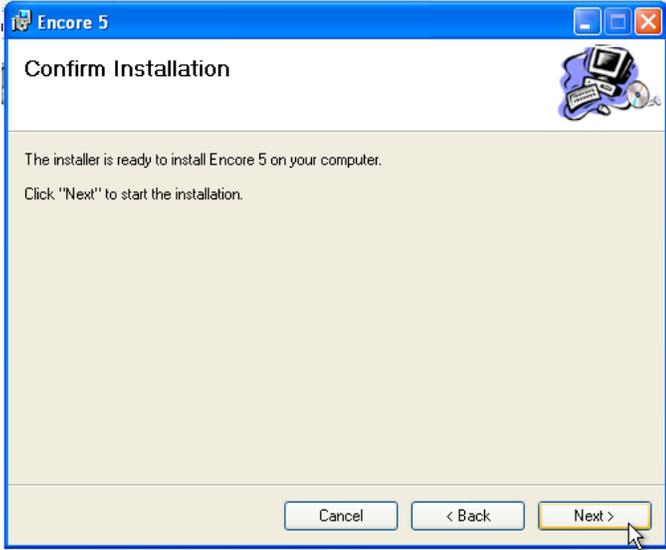

Click **Run**

Follow prompts listed for installation

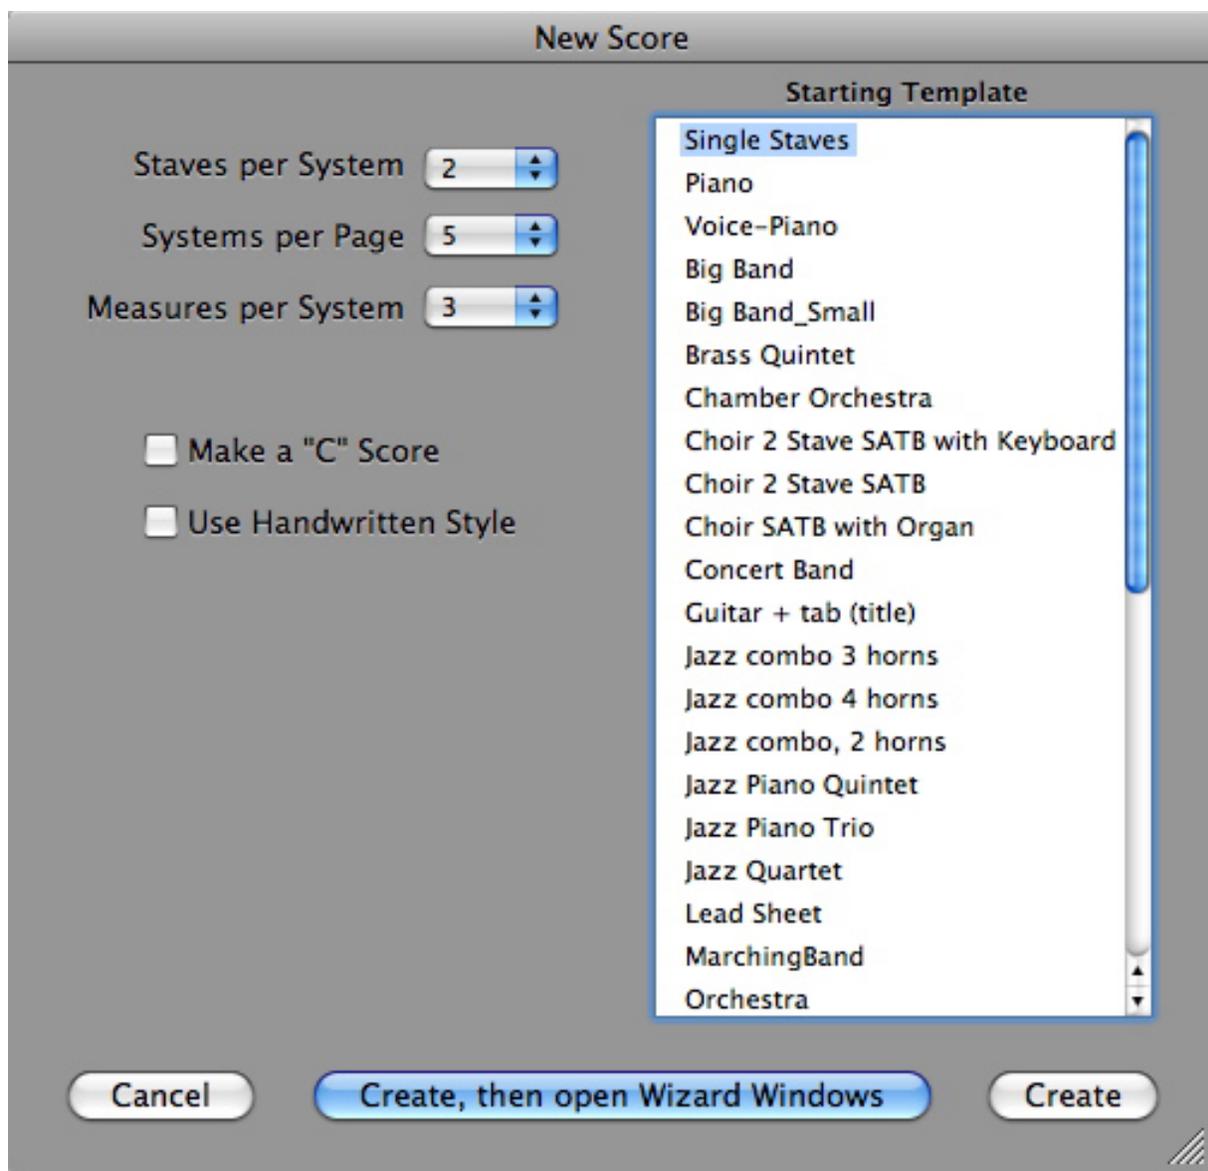

Launch Encore.

Enjoy!

New Score Wizard

1. Open **Applications>Encore**
2. Encore will open and show a blank score
3. Go to **Edit>New Score**
4. Pick the template or just specify the number of staves, systems, systems per page, measures per system and Transposed or C score
5. Click **Create**, then open **Wizard Windows**
6. The Wizard will take you through all the menus needed to create the score
7. To skip the Wizard and go straight to the score, follow steps 1-4 then click **Create**
